

Who is MECA?

The Minnesota Erosion Control Association (MECA) is Minnesota's association devoted to helping members solve the problems caused by erosion.

Created in 1988, MECA strives to communicate erosion and sediment control techniques and practices and encourage the use of those practices.

MECA connects you to hundreds of members who specialize in stormwater management and natural resource protection. Learn more at www.mnerosion.org!

Mission & Vision

Mission: Connect, educate and develop the Minnesota erosion, sediment control and stormwater management community.

Vision: Be the resource for those who share a concern for the prevention & control of erosion.

Who should become a member?

Any person who is engaged or has a vested interest in the control or study of erosion. This includes contractors, suppliers, engineers and government agencies.

Membership Benefits

Educational Opportunities: Access to low-cost educational opportunities.

Classes and workshops qualify for CEU and PDH credits

Networking Opportunities: Connect with hundreds of contractors, government employees, local authorities, engineers, and landscape architects that all share a common concern—erosion.

Events

Annual Conference & Trade Show: Held each year in March

Workshop and Field Seminars: Offered throughout the year. Topics include stormwater management, turfgrass maintenance, winter maintenance, developing and enforcing the 6 MCM's, erosion & sediment field seminars, low impact development, and much more!
