

Minnesota Erosion Control – Fast Facts and Room Reservation Guide for Grand View Lodge.

March 7-9, 2012

Booking Process - You have been provided a Reservation form for the conference at Grand View Lodge. It is crucial that you fill out this form, and list any guests that you are bringing for the conference. We also have a number of multi-bedroom units with spacious living areas. We encourage you to list individuals that you would like to share a multi-bedroom unit with.

Please note that it is important when filling out your reservation form to list the preferred units that you would wish to stay based on the description below. Please note that this will not automatically guarantee your reservation in these units, but Grand View will work to place as many individuals as possible based on first request. It is important to list 2-3 individuals that you would like to share a multi-bedroom unit with. Individuals who are at single occupancy will still have their own private bedroom/bathroom, but would share living space.

Below is a description of lodging types that we have at our facility.

Main Property – We have 49 units that make up our Main Property. Included in these units are 12 hotel style rooms at our Main Lodge, 13 one bedroom cabins, 17 multi-bedroom units, and two eight bedroom retreat centers. One of our retreat centers, the Loon Lodge has eight bedrooms which have their own private access along with two social living areas. The 17 multi-bedroom units are 2-3 bedroom units with 2 bathrooms. These are ideal for vendors or for individuals that want to network with each other. Each attended (based on single occupancy) receives his/her own private unit with living space being shared.

Clubhouse Suites- The Clubhouse Suites are located on the Pines Golf Course and are walking distance from the Gull Lake Center. We have five two bedroom units, and 12 one bedroom units.

The Roy Golf Villas – The Roy Golf Villas are located on the Pines Golf Course and are driving distance from the conference center. We have eight one bedroom units with a king size bed and Jacuzzi suite. We also have eight two bedroom units. These two bedroom units have a game room with a pool table.

Fairway Pines – The Fairway Pines are located on the Pines Golf Course and are driving distance from the conference center. The majority of these units are 3-bedroom units with spacious living areas which may include a game room. Majority of the bedrooms have two beds in them. We also have two one bedroom suites at the Fairway Pines.

Grand View Lodge is a popular destination for families, and we highly encourage you to extend your stay and have your family join you for the weekend with us. We are extending a rate of \$89 per bedroom per night based on a Friday-Sunday stay with a two night minimum. Please note that the majority of our

one bedroom units will include one or two beds along with a sofa sleeper or Murphy Bed. If you wish to upgrade a two bedroom unit, you can do so with cost at \$89 per upgraded bedroom. That means a family in a two bedroom unit will pay \$178 per night. This rate is room only, but also gives you use of our pool facility and workout room.

Once you have submitted your reservation form to us via fax or mail, please contact our Housing Coordinator, Jackie Goedken at 218-963-8768 to make a reservation for the weekend. There is a potential that you will be moved from your lodging unit during the conference to a different unit for your weekend stay with your family. We will try whenever possible to keep you in the same unit, but is not guaranteed.

The Nisswa area is noted for special activities for you and your family. Please visit our website at: <http://www.grandviewlodge.com/pages/Winter/>

Our Glacial Waters Spa is also recognized as the premier spa destination in Central Minnesota. Please visit our website at: <http://www.grandviewlodge.com/pages/GlacialWatersSpa> to view services and to make a reservation for a spa service.

We look forward to seeing you at Grand View Lodge in March.

Best Regards,
