

Challenges with long-term BMP management and maintenance

Rick Baird
MS4 Coordinator / Water Quality Specialist
City of Mankato
Environmental Services

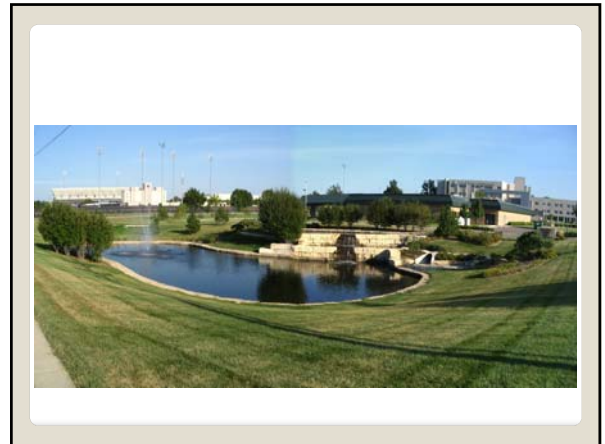

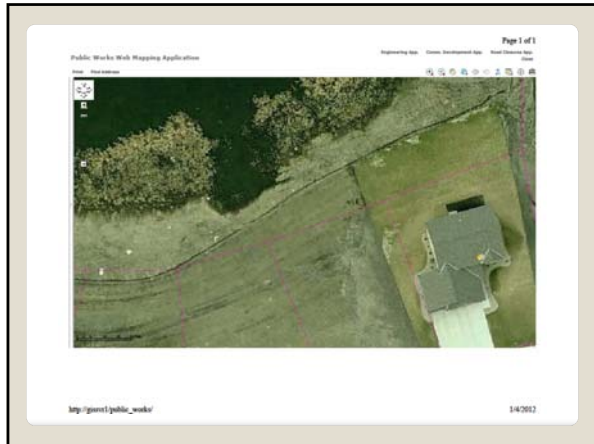

Type of treatment?

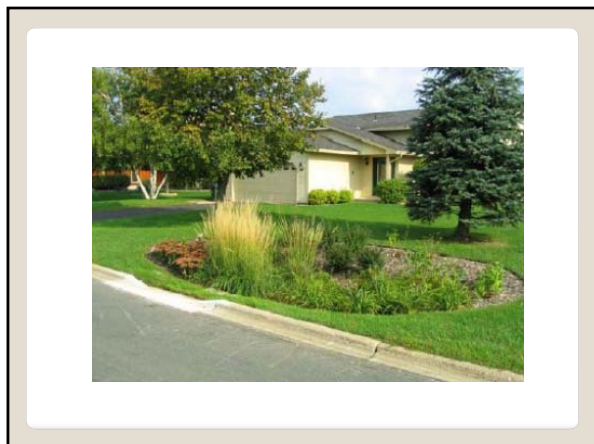

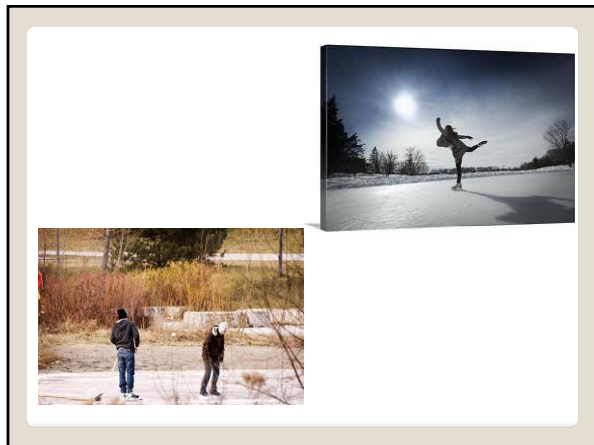

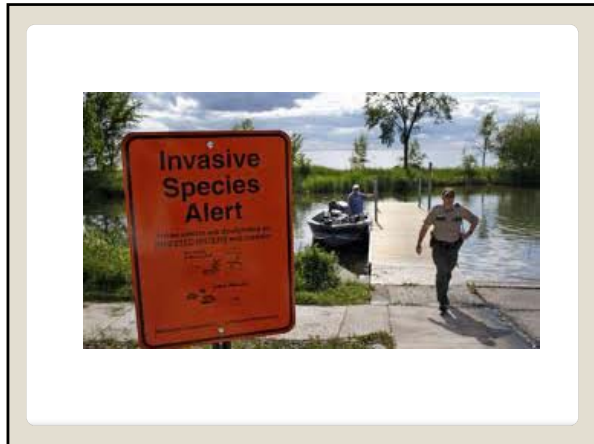

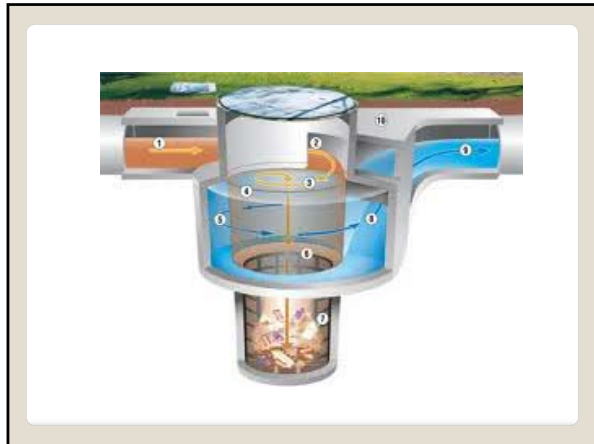

Pesticide permit?

Figure 10.3: Wet pond (Minneapolis, MN)

- Get on the planning committee.
- Hold annual design meetings to improve specs.
- Educate elected officials, staff and the public.
- Create a long term maintenance plan.
- Reacquire your easements and access.
