GOT WATER? Construction dewatering can be daunting whether you’re reviewing a plan, inspecting or even implementing a site-specific operation.

Join us for a VIRTUAL WORKSHOP that will think outside of the dewatering bag. We’ll identify the rules and risks so you can review and develop dewatering plans to make sure construction dewatering operations are successful and safe for all involved. You’ll also hear from industry experts on the latest methods and practices to select the best techniques for the job.

WORKSHOP HIGHLIGHTS:
- Dewatering Rules & Regulations
- Reviewing & Developing Dewatering Plans
- Dewatering Case Study & Inspecting Dewatering Operations
- Vendor Demonstrations of Dewatering
- Group Activity

This Workshop Qualifies for THREE Professional Development Hours (PDH)
